

## PRESS RELEASE

### MicroSilver BG and MicroSilver BG products effective against viruses

Nuremberg, April 9<sup>th</sup> 2020.

In cooperation with a renowned and certified test laboratory in Germany, Bio-Gate was able to prove in a screening test that MicroSilver BG and MicroSilver BG products are antivirally effective against enveloped viruses.

The family of enveloped viruses includes viruses such as the current corona virus (SARS-Cov2 causing COVID-19), SARS (SARS-Cov), MERS (MERS-CoV) and Influenza A. The product categories tested include hand sanitizers, hand gels, surface and textile sprays as well as shampoos.
